Wish I could make it. Wanted to share that the best part of that beach, for my family, is the shade. If shade could be preserved or even expanded that would be great.

Jeffrey Mailly Will they take input from social media? My input would be to keep the trees for shade. That's an attractive feature over other beaches. As a parent with young children, shade is invaluable. It's why we prefer Centennial over Memorial. It would also be nice to see more sand and less rocks. And a playground area (shaded) for kids to play.

Jenni Luscomb Concannon Snack bar!!

Jennie Laudate with fresh fruit and healthy options!!!

Jenni Luscomb Concannon Jennie Laudate exactly, and water

Vikki Greenberg Levine Premier Park & Play is an ideal vendor to consider - great service & unique products.

Bryan Ross Push all the sand over to the Marlboro side and let them deal with it!

Pat Lambert Please keep as much shade as possible.

Stephanie Maclary Update of the bathroom facilities, snack bar

Kate Porta Smith I would also love a playground— especially one with benches with lake views so you can still enjoy the lake while watching your kiddos play.

Kaitlyn Crowley I agree with the Bathroom update & making the beach area more sandy.

Cindi Stack Bockweg I can't get to meeting, but would love to see wheel chair/walker access right to the water!

- Installation of surveillance camera to monitor site off season and after hours.
- Playground with specific apparatus to accommodate ADA
- If playground is not part of the final design, allocation of space toward future installation of a playground should be.
