

## **March Tournament Schedule**

### **March Tournaments:**

Each weekend in March, GGLeagues will be offering different tournaments.

### **Tournament format:**

Each tournament will be broken down in groups of 16 teams. All teams will be guaranteed two matches for each tournament. All players will play a round robin match and then will begin a single elimination bracket style tournament. Once the single elimination bracket begins, once the player loses, that will be the end of their tournament. If the player wins, they will move on to the next round and continue playing until there is a winner declared.

This is a single day event so anyone who registers will need to be available for 3-4 hours each tournament.

### **Tournament Requirements:**

NHL21 will have options for both PlayStation 4 AND Xbox One. Xbox and PlayStation cannot play against each other and those tournaments will be held separately. Super Smash Bros will be played on the Nintendo Switch.

Fortnite and Rocket League are both cross-platform.

### **Teams and age divisions:**

All teams must be formed prior to registering for the GGLeagues platform.

- Rocket League is a team of three.
- Fortnite will have two different team variations: teams of 1 and teams of 2. We will hold Fortnite tournaments across two separate days.

All tournaments will have two age divisions. 18 and older and 17 and younger.

### **Tournament Details:**

All tournaments will cost \$20

### **Registration:**

[GGLeagues | Organization](#)
